Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/05/07 has been entered.

Election/Restrictions

2. Claims 1, 3-13 and 45-46 are allowable. The restriction requirement among the Species, as set forth in the Office action mailed on 03/15/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 14-45, directed to Species II-V no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: claims 1 and 3-46 are allowed at least for the reason that the prior art of record does not teach or reasonably suggest the laser scanning unit comprising a housing, an optical system

disposed in the housing and including an optical source which emits a laser beam, a mirror which scans the laser beam, and a plurality of optical elements which image the laser beam on an image surface, a motor disposed in the housing and which rotates the mirror, and a motor drive chip disposed outside of the housing and which controls a rotation speed of the motor, wherein the motor drive chip is mounted on a main printed circuit board of a printing machine with which the laser scanning unit is used, the main printed circuit board being disposed remotely from the laser scanning unit, as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Nishino (JP 2002-116394) discloses a main printed circuit board of the printing machine including a laser drive IC along with the laser light source, which is remotely connected to the scanning unit. However, Nishino is silent with regard to the motor drive chip for driving the polygon mirror motor being disposed on the remote main printed circuit board as claimed.
